

Underground Tanks

- Specially Formulated Coatings
- Anode Easy Attachment Lead
- Landscape Friendly Dome Color
- Direct to Ground

Coatings: The finished product has been extensively tested by highly reliable engineering testing laboratories and has received the highest marks for excellent “barrier” properties (permeability to water, electrolytes and gases). Excellent corrosion protection can be expected as a consequence of this coating formulation as verified by these test results.

When the tanks are being prepared for burial, particular caution should be taken to touch up any areas on the tank shell or heads that may have incurred damage to the painted surface during shipping and handling. Those areas can be touched up with either a two component epoxy/urethane paint, or with a coal tar epoxy.

Anode Protection: Each tank comes with the Anode connector.

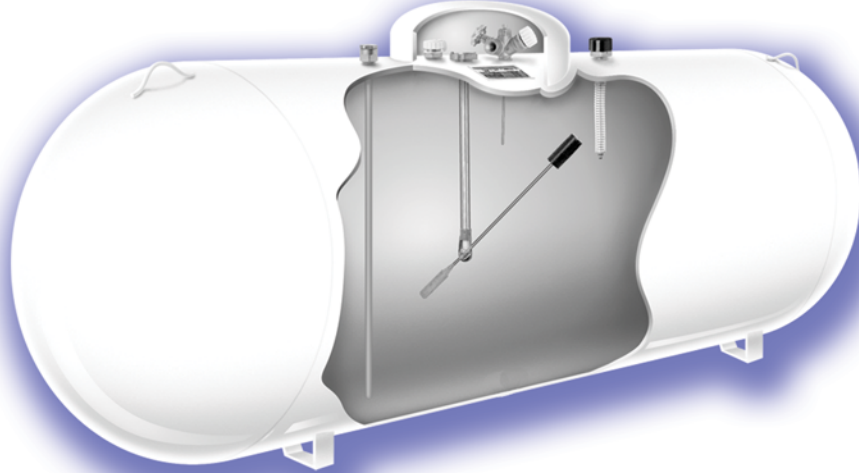

Dual Lifting Lugs: On 500 gallon + capacity, four lugs are provided on all tanks 500 gallons or larger.

Landscape Friendly: The green dome will blend into landscape creating a more environmentally perfect installation.
**Also available with the Freedom Dome or E-Dome.

Direct to Ground: Tanks are ready to bury from factory.

LIMITED WARRANTY FOR PROTECTIVE COATING

March 29, 2002

Seller warrants that the protective coating of this underground tank is free from defects in material and workmanship under normal use in service for the purpose for which the underground tank was manufactured for a period of four (4) years from the date this underground tank was shipped from the manufacturing plant to the first purchaser. This Limited Warranty covers ONLY THE PROTECTIVE COATING and extends ONLY TO THE FIRST PURCHASER of the underground tank and does not extend to a consumer who purchases the underground tank from a dealer or otherwise. Seller will, at its option, repair or replace without charge the protective coating covered by this limited warranty.

This Limited Warranty for protective coating is expressly in lieu of all other protective coating warranties, express or implied, including any warranty of merchantability or that the protective coating is fit for any particular purpose or use. Seller shall not be responsible for failures caused by misloading, overheating, improper cleaning, alteration, misuse, improper installation, physical abuse, accident or for normal wear and tear. It is the installer's responsibility to insure proper installation including repairing coating damage from shipping and handling of tank. This Limited Warranty for protective coating shall be rendered null and void in the event installer fails to repair any coating damage prior to installation or fails to utilize best engineering practices for installation, including the attachment of sacrificial anode(s) and use of a dielectric union in the gas line. THE REMEDIES SET FORTH HEREIN ARE EXCLUSIVE. SELLER SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, SPECIAL, OR INCIDENTAL DAMAGES RESULTING FROM THE DELIVERY, USE OR FAILURE OF THE PRODUCT (INCLUDING LOSS OF ANY MATERIALS STORED IN PRODUCT), OR FROM ANY OTHER CAUSE WHATSOEVER. BY ACCEPTING DELIVERY OF THE PRODUCT, THE BUYER ACCEPTS THIS LIMITATION OF REMEDIES AS REASONABLE AND ENFORCEABLE. IN NO EVENT SHALL SELLER'S LIABILITY EXCEED THE PURCHASE PRICE FOR THE PRODUCT.

If Buyer believes that the protective coating on this underground tank is defective in material or workmanship, Buyer must give written notice to Seller at the address appearing below before the expiration of the warranty period, providing details as to date and place of purchase, serial number, and any alleged defect. If Seller determines that a protective coating is covered by this Limited Warranty, Seller will then give written instructions to Buyer regarding the manner in which the protective coating is to be repaired or replaced. Buyer may be requested to return the underground tank at Seller's expense, but no such return should be made until Buyer has received written instructions from Seller. Seller will then perform under this Limited Warranty within thirty (30) calendar days after the underground tank is returned to Seller.

This Limited Warranty gives Buyer specific legal rights, and you may also have other rights which vary from State to State.
